HARDY BETA AND ALPHA GRAPES

Strong, two-year Vines 25 cts.

There is a lot of satisfaction and big money in growing Beta and Alpha hardy grapes.

Vines are so hardy that they do not need any winter protection and so are very easily cared for, only needing pruning back once a year to insure heavy fruiting. The fruit is borne in compact bunches, turning black about a week before ripe making them fine for shipping.

Plenty of time to order no matter how far vegetation is advanced with you as our trees and plants are dormant and we can ship safely any time up to latter part of May.

HARDY BETA WINE GRAPES

Bargain Prices on strong 2-year-old vines

The quality of Beta and Alpha is very good and when fully ripened on the vines they are very sweet and are extra good for making Grape Juice, Jellies, Preserves, etc.

Vines should be set anywhere from 4 to 8 feet apart in row and rows 12 feet apart. These grapes do well growing along fence line and on side of buildings for screen.

You cannot grow too many Grapes. Your neighbors will gladly purchase any surplus you may have.

Send no money now you can pay for the vines when they arrive in good order. Just fill in number wanted on lines below. We advise taking an equal number of each variety for best results.
